PROFESSIONAL SUMMARY

Business Operations Manager with 6+ years of experience leading end-to-end operations across renovation project management, vendor governance, and procurement. Improved efficiency and reduced cost by building scalable systems from the ground up. Prior corporate experience as a Technology Operations Coordinator added a strong foundation in IT infrastructure coordination and cost optimization, delivering $56,000+ in annualized savings through disciplined auditing and process improvement.

SKILLS & COMPETENCIES

- **Certifications:** Six Sigma Yellow Belt, ITIL 4 Foundations
- **Operational Strategy:** Vendor Management, Procurement & Sourcing, Supply Chain Logistics, Facility Operations, Risk Mitigation, SOP Development, Visitor Management, Asset Management Implementation
- **AI Efficiencies:** AI Training & Auditing QA (RLHF), Anthropic Claude, ChatGPT, Google Gemini
- **Methodologies:** Six Sigma (DMAIC), ITIL 4 Foundations, Project Management.
- **Technology Usage & Implementation:** Slack, Google Workspace & Microsoft (Office 365, Lists, Entra, Admin, Planner, Teams, SharePoint, etc.), IT Infrastructure (networking, asset management, digital signage, software management, etc.)

EXPERIENCE

Business Operations Manager, January 2022 – Present
Rauck Built LLC | Full-time

- **Physical Operations & Logistics:** Managed end-to-end renovation lifecycles across concurrent sites as primary liaison between Engineers, Architects, and Contractors. Oversaw multi-trade execution including foundation, roofing, electrical, and plumbing to ensure code compliance and design fidelity.
- **Subcontractor Operations Framework:** Authored contractor/vendor historic scorecard and standardized SOP/SOW templates to govern the full contractor lifecycle from sourcing through onboarding.
- **Vendor CRM & Compliance Automation:** Built a contractor compliance tracker in Microsoft Lists capturing licensing, insurance, company registration, and experience for all active vendors. Deployed multiple Power Automate flows triggering proactive expiration alerts before any credential lapses, eliminating compliance gaps without manual oversight.
- **Digital Operations & Cost Control:** Deployed a centralized Microsoft 365 Digital HQ (SharePoint, Exchange, Entra ID) as a Single Source of Truth for all project files, eliminating version control errors and reducing retrieval time. Maintained job-costing models tracking COGS and project profitability across concurrent sites, consistently delivering 25–35% margins.

Technology Operations Coordinator, May 2019 – January 2022
Energy Recovery, Inc. | Full-time

- **Infrastructure Coordination:** Facilitated the physical technology setup for a new R&D facility by coordinating vendor installations for structured cabling and security, while procuring essential facility hardware.
- **Visitor Management Automation:** Led the implementation of the Envoy Visitor Management System to digitize legal workflows. Achieved 100% NDA compliance, reduced manual tasks by 95%, and fortified physical security.
- **IT Cost Optimization:** Applied DMAIC methodology to audit IT and telecom spend. Consolidated redundant software and optimized mobile contracts to deliver $56,000+ in annualized savings and establish a formal IT governance framework.
- **Operational Efficiency:** Deployed eMaint CMMS for automated inventory management and Cradlepoint routers for field connectivity, reducing R&D downtime caused by parts shortages by 95%.

Solutions Engineering Support, October 2018 – May 2019
Hewlett Packard Enterprise | Contract

- **System Reliability:** Supported hardware and software validation testing to improve system reliability and product quality in enterprise computing environments, by collaborating with engineering teams to diagnose and resolve platform issues.

EDUCATION

C.T. Bauer College of Business, University of Houston, Houston, Texas
B.B.A in Management Information Systems, May 2018
